

Siteworks, Inc. is a veteran-owned, Charleston-based heavy civil and utility construction company that has been serving the Lowcountry of South Carolina for 32 years. Our work focuses on private, commercial, and federal site development.

**Crew Chief Job Summary:**

Our company is looking for a Crew Chief to join our team. In this role you will coordinate with our Surveyor, field crews and Project Managers to conduct boundary, topographic, and as-built surveys. You will also complete construction staking and / or site layout. You will also assist with setting up and troubleshooting machine GPS control. You should be familiar, or be willing to become familiar, with Topcon equipment. You will, at times, work alone in the field or as part of a team.

- Demonstrated experience in land surveying, boundary analysis, topographic mapping, legal descriptions, construction staking and utility layout.
- Must have a minimum of 2-4 years of experience in land surveying field operations, and at least 1 year as a Crew Chief
- Manage and coordinate surveys and investigations of land surfaces and prepare topographic maps, boundary adjustments, subdivision maps, and records of survey.
- Conduct field survey operations.
  - Ensure projects are completed on time and within budget
- Assist the mapping team regarding projects, tasks, and operations
- Must have a valid Driver's License
